

## Press Release

### **GAB Neumann & Nippon Kornmeyer Carbon Group (NKCG) announce their cooperation in the field of CFC column internals for ultra-corrosive applications**

Windhagen, July 2018

GAB Neumann, a respected producer of resin impregnated graphite and silicon carbide process equipment, and Nippon Kornmeyer Carbon Group, an expert in the field of carbon and graphite materials, have decided to combine their respective technologies and competences to jointly develop a complete range of CFC (carbon fiber reinforced composites) column internals for ultra-corrosive applications.

The product range includes support grids for random and structured packing, liquid distributors, liquid collectors, bubble cap trays, and down comers, among others. Every single part is custom-made and therefore perfectly adapted to each customer's specific conditions and process requirements.

The use of the CFC material presents numerous advantages. CFC is extremely light in weight, has high flexural strength and is corrosion resistant to even the strongest acids.

This partnership opens new opportunities for our customers especially for large diameter columns and for the debottlenecking of existing graphite, PTFE lined steel, PTFE lined FRP, or glass lined steel columns at lower costs.

For more information please visit NKCG website at <http://carbongroup.de/> or GAB Neumann website at <https://www.gab-neumann.com/>.

### About Nippon Kornmeyer Carbon Group

Nippon Kornmeyer Carbon Group (NKCG) is a company jointly operated by the shareholders of Kornmeyer Carbon-Group (Germany) and Nippon Carbon Co. Ltd. (Japan), a Tokyo stock exchange listed carbon manufacturer.

NKCG specializes in design, manufacturing, coating, purification and technical support of carbon- and ceramic-based materials for our customers in Europe, Middle-East, Africa and Americas.

Key industries served cover the segments: heat treatment, automotive, solar, semiconductor and aerospace.

Further information on NKCG and Nippon Carbon Co., Ltd. can be found in NKCG`s newsroom at [www.carbongroup.de](http://www.carbongroup.de) or [www.carbon.co.jp](http://www.carbon.co.jp).

### Important note

This news release may contain forward-looking statements based on current assumptions and forecasts made by Nippon Kornmeyer Carbon Group GmbH. Various known and unknown risks, uncertainties and other factors could lead to material differences between the actual future results, financial situation, development or performance of the company and the estimates given here. The company assumes no liability to update these forward-looking statements or to make them conform to future events or developments.
